JUMA

communications

Product Description

From the chosen radio connector a heavy-duty coiled lead terminates to an IP67 rated to talk switch (TAC-PTT). A chassis mounted socket allows for the connection of the 3M Peltor ComTAC headset for tactical use, lightweight behind head tactical headset for command & control roles, and a basic earpiece/microphone for general patrol use.

- Optional* - *waterproof wireless PTT can be incorporated into the TAC-PTT.*
- Optional* - *tone generation functionality can be added to the TAC---PTT.*
- Optional* - *adapter lead for interfacing Avon C50/FM53 respirator to Peltor ComTAC.*
- Optional* - *TM03 Throat Microphone upgrade available for the Peltor ComTAC.*
